

ANNOUNCED: Q1 2019

LAUNCH 10

7350

a KERSHAW ORIGINALS design

It's obvious why the Launch 10 earned its nickname of "The Claw" here at Kershaw HQ. It features an aggressive, hawkbill-style blade with angular planes on both blade spine and handle. Yet the Launch 10 is still comfortable to carry, hold, and use. The curved blade works wonders when opening boxes or cutting cord or rope.
