

**DURING A COMPETITION,
IN THE BACK COUNTRY
OR DOWN RANGE, YOUR
WARRANTY ISN'T GOING
TO HELP YOU.**

**THE BEST WARRANTY
IS THE ONE YOU WON'T
HAVE TO USE.**

**LESS
THAN** **1%**
**ACTUALLY,
LESS THAN
.007%.**

No one is perfect, but Nightforce riflescopes are as close to perfect as humanly possible. We find manufacturing issues in fewer than .007% of the scopes we build. This means your riflescope will not fail on the range, in the field or when protecting our country.

All Nightforce riflescopes are covered by a transferable Limited Lifetime Warranty. If we did something wrong, we'll fix it. Some companies tempt you with warranties that will replace your riflescope... raising the question of just how well theirs are made in the first place. We prefer to build Nightforce riflescopes properly from the start, built to hold up to any condition or situation. A warranty is no substitute for inherent quality.

WE HAVE YOU COVERED.
