

New for 2021
MONARCH M7
8x30/10x30/8x42/10x42 Binoculars

Iconic binoculars. Better than ever.

MONARCH M7

8x30/10x30/8x42/10x42 Binoculars

- Wide interpupillary range
- Fully multicoated optics, free of lead and arsenic
- Quick focusing
- Sophisticated rubber armored exterior design provides shock resistance and a firm comfortable grip
- Turn-and-slide rubber eyecups
- Flip-down objective lens covers
- Locking diopter adjustment control maintains your personal setting
- Nikon's legendary ED (Extra-low Dispersion) glass lenses
- Dielectric High-Reflective Multilayer Prism Coating
- Extremely wide field of view
- Phase-correction coated prisms
- Smooth central focus knob
- Oil/Water repellent coating-applied to eyepiece and objective lens surfaces
- Lightweight, slim design
- Long eye relief, perfect for eyeglass wearers
- Waterproof (up to 1m/3.3ft for 10 minutes) and nitrogen-purged for fog-free performance

ED Glass. The difference is clear. Used in many premium Nikon optics, from camera lenses to spotting scopes, Nikon's ED (Extra-low Dispersion) glass virtually eliminates common distortion, chromatic aberrations and color fringing. The result? Clear high-resolution views in nearly any lighting condition.

Nikon's renowned ED glass reduces chromatic aberration while the dielectric high-reflective multilayer prism coatings ensure superior light transmittance; resulting in brighter images and more natural colors. Phase-corrected coatings are also applied to prism surfaces to increase image resolution. The MONARCH M7 also feature eyeglass compatible turn-and-slide eyecups with long eye relief for maximum comfort on any outdoor adventure.

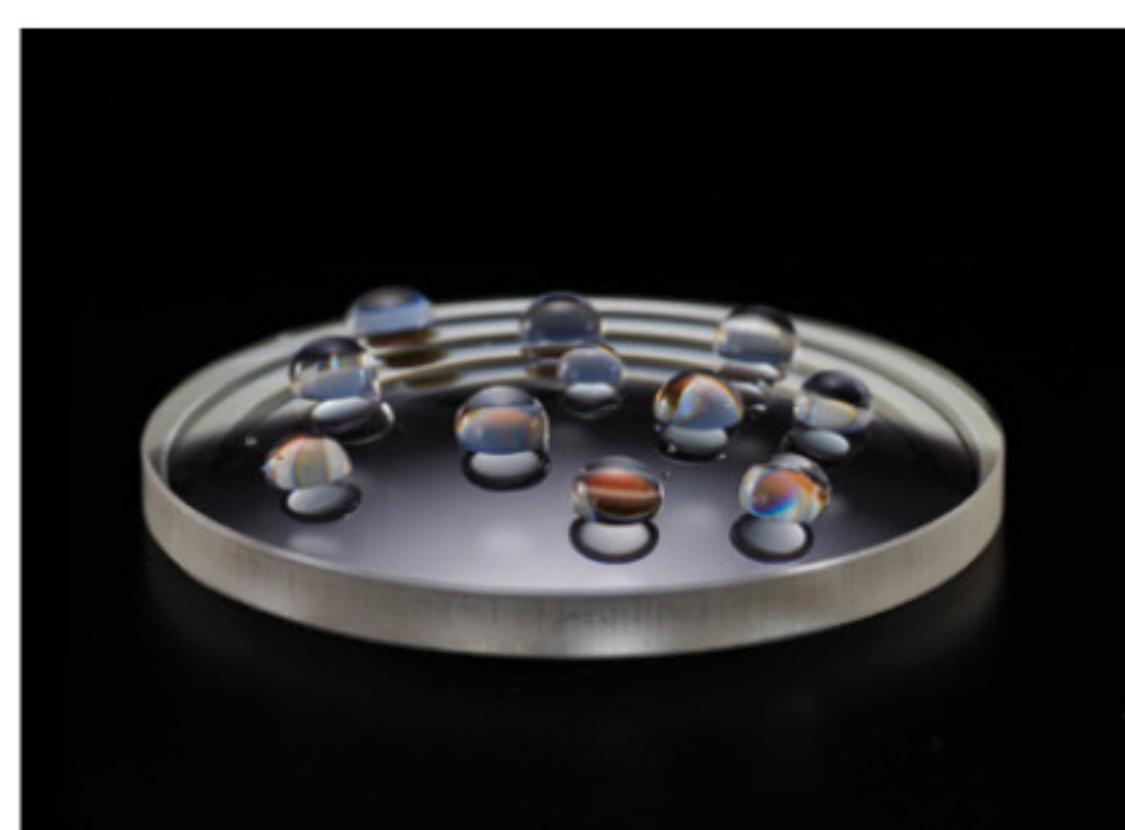

New

Locking diopter adjustment. Adjust for your vision—with or without glasses—then lock in the setting. A locking diopter adjustment is an exciting addition to the MONARCH M7 line, a feature not previously available at this price point.

New

Oil/Water repellent coating for easy cleaning. An oil and water repellent coating is applied to both the objective and eyepiece lenses. Simply wipe away moisture, fingerprints and smudges.

Waterproof and fogproof.

Nitrogen filled and O-ring sealed for for waterproof and fog-free performance. Keep your optics clear when you need them most.
