CENTERING THE DOT & DIOPTER ADJUSTMENT

The magnifier has internal windage and elevation adjustments to center the dot. If the red dot seems off-center, you can easily make adjustments.

Once the magnifier is properly installed, you can move the visible location of the dot by rotating the two adjustment screws located on the top and right side of the magnifier.

To adjust the Windage to move the point of impact to the right, slowly turn the adjustment clockwise with a coin or spent casing.

To adjust the Elevation up, turn that adjustment screw clockwise.

If resistance is felt, you may be at the end of travel. Do not force the screw any further.

With these adjustment screws, you can get the dot close to the center. The point of impact will not be affected if the dot is not perfectly centered.

Setting the diopter ring at the rear of the eyepiece is the critical first step to successful precision shooting. Looking at a featureless light background like a clear blue sky or blank wall, the reticle should appear sharp and crisp. If it does not, you need to make adjustments by turning the ring. Look at the scope with quick glances and adjust until the Dot is clear at first glance. This is a one-time adjustment. Because everyone's eyes are different, the ideal adjustment will vary from person to person.

SPECIFICATIONS

Magnification: 3x	Total Elevation Adjustment: \geq 110 MOA	Eye Relief: 2.8 in	Click Value: 0.5 MOA
Objective Lens Diameter: 26.5mm	Total Windage Adjustment: \geq 110 MOA	Weight: 8.45 oz	Warranty: Lifetime Warranty
Exit Pupil: 8.5mm	Field of View @ 100 Yards: 40.9 ft	Length: 3.9 in	

Specifications may vary and are subject to change without notice.

FEATURES

- Exceptional Glass Clarity
- Extra Wide Field of View
- Disappearing Eye Piece with Generous Eye Relief
- Fits Industry Standard Mounts
- Waterproof / Fog Resistant
- Field Tested with Live Fire
- Backed by Lifetime Warranty

LENS CARE

Please do not use any organic solvent such as alcohol or acetone on your optic. First, blow dust or any foreign objects off of the lens. Then, use a soft cotton or microfiber lens cloth to clean any fingerprints or smears off the lens. Alternatively, you may use a piece of professional lens paper for further cleaning, if necessary.

WARNING: Always ensure your firearm is unloaded (chamber empty and magazine removed) before installing optics or accessories.

WARNING: Improper installation of firearm parts or accessories may result in death or serious personal injury. If you are not properly trained in the installation of these parts, have them installed by a gunsmith or armorer.

REMEMBER: THE FOUR RULES OF FIREARMS SAFETY

1. Treat every firearm as if it were loaded
2. Never let your muzzle cover anything you are not willing to destroy
3. Keep your finger off the trigger until your sights are on target
4. Be sure of your target and what is behind

LIFETIME WARRANTY

Your Primary Arms SLx Magnifier is covered by the Primary Arms Lifetime Warranty. If a defect due to materials or workmanship, or even normal wear and tear has caused your product to malfunction, Primary Arms will either repair or replace your product. You can find more details about our lifetime warranty at www.primaryarmsoptics.com.
