## DOWNRANGE CONFIDENCE, STRINGS ATTACHED.

First light, last light, and all day long, this crossbow topper will have you stacking bolts and filling tags in no time. Our purpose-built reticle not only gives you holdover points out to 100 yards, it features red and green illumination for low-light shooting. We also included the magnification and FPS on the magnification ring to keep the scope compatible with a variety of bows and setups, and a wide field of view makes it perfect for a variety of shooting situations. Plus, we're including rings, flip caps, and neoprene cover with the scope, so it's ready to mount right out of the box. And the best part? It's a Crossfire®, so you know it's built for the field.
