Rugged construction that's still compact, with a lightweight form-factor.

#### ▶ AR-BDC4 RETICLE

Purpose-built for most popular 5.56 cartridges.

3x

5x

### WHAT'S IN THE BOX:

- Rubber Lens Covers
- T10 Torx Multi-Tool
- Multi-Height Mount System - Lower 1/3 Co-Witness Height & Low Mount Height
- Lens Cloth
- CR2032 Battery

## BUILT SMALL TO GO BIG.

Leaner, meaner, and featuring a redesigned HD optical system for a significantly smaller, lighter tactical solution, the new Spitfire™ HD Gen II 3x and 5x models let you choose your ideal mounting height while cutting inches and ounces off the original platform. Now with night vision compatibility, it's a shooter's dream come true, running on a BDC-style reticle designed to subtend with most popular 5.56 cartridges for quick holdovers at known distances to keep you locked on target. Plus, the prism design and etched reticle give you ultra-fast target while still functioning without illumination, and the turrets are exposed—no more caps, no more snags. Admit it. You're already picturing one on your go-to rifle.

### SPITFIRE™ HD GEN II
