The way you look at life has a lot to do with what you get out of it. For the people who spend a lot of time looking at the bright side, there's simply no better eyewear than Bollé®.

Born to the uncompromising world of sport,

Bollé offers the assurance of

performance even when stepping away from

the competitive arena and into daily life.

But then, for those who make an exciting

challenge out of every moment, maybe

there isn't such a difference.

BOLLÉ® HAS EARNED THE TRUST OF ATHLETES AROUND THE WORLD. WHERE COMFORT, FUNCTION AND DURABILITY CAN AFFECT PERSONAL PERFORMANCE, THERE'S NO ROOM FOR COMPROMISE. WHATEVER FRAME STYLE YOU CHOOSE, YOU CAN REST ASSURED IT WAS CREATED TO MEET THE TOUGHEST TESTS SPORT, AND LIFE, CAN OFFER.

FRAME TECHNOLOGY

ABSORBER HINGES
Ergonomically designed hinges provide appropriate tension on the temples for a comfortable, snug fit. Available on the Canebrake.

ADJUSTABLE NOSE PADS
Allow you to tailor the position of each nose pad to fit the unique angles of your nose and keep the frame securely on your head. Available on most Bollé Metals.

DUAL COMPOSITION FRAMES
Monel, a light, corrosion-resistant metal alloy, is fused with nylon to create a durable metal frame with the comfort of a nylon frame. Available on Bollé Metals.

FLEX-GRIP®
This patented frame temple technology incorporates a metallic insert embedded into the frame temples to carefully hug your face and secure the frames in place. This results in long-term, confident comfort. Available on the Laguna and Tarpon.

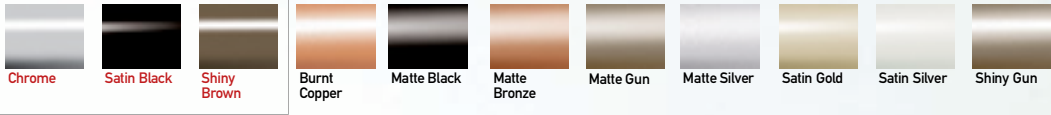

HYDRALON®
Bollé's proprietary, fortified nylon frame material is comfortably lightweight and virtually indestructible.

SPRING HINGES
Engineered to provide just the right amount of tension on the temples so frames fit comfortably and securely on your face. Available on most Bollé Metals.

METALS

NEW FOR 2005

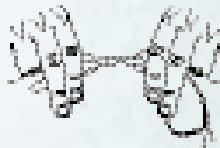

MICROFUSION™
In our patented metal frame manufacturing process, molten metal alloys are injected into specially designed molds for precision frame styling and design. Available on the Meanstreak, Thunderstruck and Heatseeker.

TRU® Rx PROGRAM
The Bollé TRU authentic prescription program offers all the style, performance and quality you expect from Bollé plano eyewear with the addition of the wearer's prescription. The TRU program offers patented 8-base lens technology and matched lens tints and technologies.

SHOCK ABSORBER TIPS
These Thermogrip® temple tips have a portioned metal core that allows more comfort and flexibility, while staying securely on your face. Available on the Meanstreak, Thunderstruck and Heatseeker.

THERMOGRIP®
Super strong rubber temples and nose pads deliver firm, comfortable adhesion, especially when you sweat.

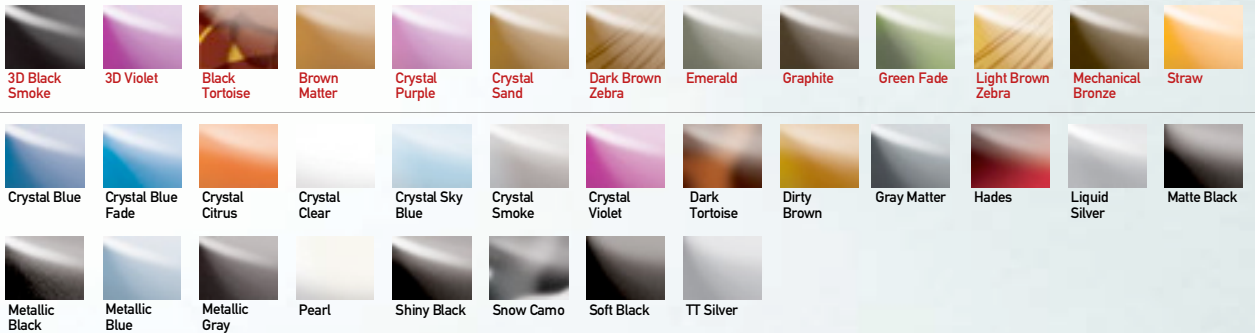

WIRE-CORE TEMPLE TIPS
Adjustable wire core temple tips increase comfort by creating a unique fit for each wearer. Available on the Parole, Vigilante, Sizzle and some Metals.

Not all features available on all frame styles.

NYLONS

NEW FOR 2005

ANTI-REFLECTIVE (AR) COATING

Scientifically engineered lens coating, applied to the back of Bollé® lenses, eliminates annoying backside glare and ensures crystal clear optics.

ANSI STANDARDS

All Bollé lenses exceed ANSI (American National Standards Institute) requirements for UV protection, impact resistance and optical clarity.

CARBO GLAS® COATING

Industrial strength, protective lens coating applied to both sides of the lens provides superior scratch-resistance.

OPTICS CONTROL SYSTEM™

Unique interchangeable lens system lets you select the right lens for any light condition. Available in most Sport products.

POLARIZATION

Embedded in the lens, this optically precise filter enhances visual acuity by eliminating extreme glare and reflections.

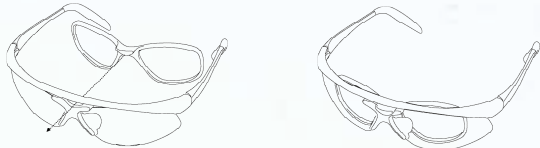

POLYCARBONATE (PC) LENSES

Ultra-lightweight and virtually shatterproof, Bollé's premium grade plastic resin lens is 20 times more impact resistant than glass and one-third the weight.

SPORT OPTICAL SYSTEM (SOS)

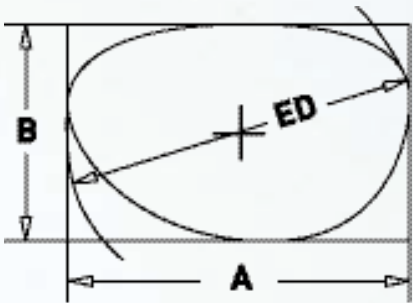

Bollé's patented Rx adapter design allows easy attachment of prescription lenses to our Vigilante and Parole interchangeable lens frames.

UVA/UVB PROTECTION

Bollé exceeds the industry standard with 100% UVA/UVB protection, up to 400 nanometers.

LENS TECHNOLOGY

P3® TECHNOLOGY

Performance. Polycarbonate. Polarized Bollé lenses are the ultimate combination of science and performance.

Bollé 100

Extremely dark amber lens. Perfect for climbing in high altitudes with extremely bright light conditions. ♦9%

Citrus

Medium contrast orange lens. Ideal for low to medium light conditions. ♦32%

Clear

Crystal clear lens. Ideal for night time activities, like night skiing. ♦91%

Clear MLR

Customized clear lens with a unique multi-layer red flash mirror to enhance visual acuity during low-light and no-light conditions. Ideal for night activities and "clubbing in the city". ♦90%

Cobaltz®

Medium contrast steel gray lens with platinum metallic blue mirror. Ideal for high glare environments and bright light conditions, such as marine sports. ♦12%

Competivision®

THE tennis lens. High contrast teal tinted lens that mutes all colors except for optic yellow so the ball stands out. Ideal for tennis and softball (optic yellow ball). ♦37%

Competivision® Gun

Bollé's authentic Competivision lens, with a flash metallic silver mirror, cuts the harsh glare on the court in bright light conditions. This lens enhances visual acuity by slightly muting all colors except for optic yellow so the ball stands out. Ideal for bright days on the tennis court. ♦22%

EagleVision 2®

High contrast cinnamon lens. Ideal golf lens as it highlights the breaks in the green. Best for low light conditions on the golf course. ♦47%

EagleVision 2® Dark

Darker version of original high contrast cinnamon lens. Ideal for bright days on the golf course. ♦39%

EagleVision 2® Gold

High contrast cinnamon lens with gold mirror coating. Ideal for most low and bright light conditions on the golf course. ♦18%

Marine Polarized Vision System ♦10-12%

Proprietary lens technology combines a polarizing lens system with hydrophobic coatings to provide the ideal sunglass lens for the harsh marine environment. Comes in Amber (ideal for freshwater lakes and rivers) Dark Gray and Gray Gradient Silver (ideal for inshore/bluewater). Ideal for all marine applications.

Lemon

High contrast yellow lens. Ideal for very low light conditions. ♦84%

Midas™

Burnt gray medium contrast lens with gold mirror. Ideal for high glare light conditions and outdoor sporting activities. ♦11%

Mogul™

Bollé's authentic Vermillon lens enhances contrast of white light wave lengths with a flash silver metallic mirror. Reduces intense reflections of snow and surfaces. Ideal for snow/sport activities and looking "cool". ♦23%

Polarized Axis™

Customized green/gray lens providing the ultimate in "comfort" vision, soothing the eyes against harsh sun rays and providing a polarized filter to fight glare. ♦16%

Polarized Cactus®

Medium contrast gray/green lens with gold mirror and polarizing filter. Ideal for driving and eliminating annoying road glare. ♦12%

Polarized Cobaltz®

Medium contrast steel gray lens with platinum metallic blue mirror and polarized filter. Ideal for high glare environments and bright light conditions, such as marine sports. ♦13%

Polarized Midas™

Burnt gray medium contrast lens with gold mirror and polarizing filter. Ideal for high glare light conditions and outdoor sporting activities. ♦13%

Polarized Sandstone®

High contrast amber lens with polarizing filter. Ideal for everyday high glare conditions. ♦18%

Polarized Sandstone® Gold

High contrast amber lens with gold mirror and polarizing filter. Ideal for high glare, bright light conditions. Also reduces eye fatigue by cutting down on infrared light transmission. ♦10%

Polarized Sandstone® Gun

High contrast amber lens with metallic silver mirror and polarizing filter. Ideal for everyday high glare conditions. ♦17%

Polarized TNS

Neutral density gray lens with polarizing filter. Provides true color definition while fighting harsh glare. Ideal for everyday all-purpose use. ♦12%

Polarized TNS Gun

Neutral density gray lens with metallic silver mirror and polarizing filter. Provides true color definition while fighting harsh glare. Ideal for everyday, all-purpose wear. ♦14%

Shadow™ Brown

Unique light brown lens with gradient metallic gun mirror. Provides true color definition. Developed for the active lifestyle participant who likes to be fashion conscious. ♦24%

Shadow™ Gray

Unique light gray lens with gradient metallic gun mirror. Provides true color definition. Developed for the active lifestyle participant who likes to be fashion conscious. ♦26%

TLB (True Light Brown) Lite

Neutral density light brown lens that provides contrast enhancement and definition. Ideal for low to medium light conditions. ♦73%

TNS (True Neutral Smoke)

Neutral density gray lens provides true color definition. Ideal for all-purpose use. ♦12%

TNS Gun

Neutral density gray lens with metallic silver mirror. Provides true color definition. Ideal for everyday, all-purpose wear. ♦13%

Vermillon®

High contrast rose lens. Ideal for low to medium light conditions. Perfect for snow sport activities and as all-purpose eyewear. ♦42%

♦ Approximate % visible light transmission.

Not all lens colors and features available in all frame styles.

JEFF NYGAARD, Pro Beach Volleyball player wears Mongrel, Shiny Black, Polarized Sandstone® lens.

SPORT

Bollé® was born of sport, where extreme conditions and extreme demands are the norm. Technology is tailored to meet the needs of diverse environments from ski slopes to the beaches of professional beach volleyball. Frame choices not only perform, but reflect the personal styles of the athletes who wear them. Many lenses are even interchangeable to meet changing conditions. But one thing remains constant: Bollé eyewear performs to the highest standards of sport.

Jake Gibb, Jeff Nygaard, Jen Pavley, Angie Akers Pro Beach Volleyball players at the beach, Santa Monica, Ca.

MEGHANN SHAUGHNESSY, Pro Tennis wears Supercell, Metallic Black, Competivision® Gun lens.

COMPETIVISION - THE TENNIS LENS

Competivision® lenses act like filters, carefully muting all colors in the spectrum except optic yellow. The result is amazing: a tennis ball or an optic yellow softball literally pops out of the background. That's why Competivision is the choice of softball players and is the official eyewear of the US Professional Tennis Association.

SPORT FASHION

If you look at it right, the whole world is a playing field. For people who see things that way, Bollé® eyewear provides the right look. Of course, the quality optics and comfortable, technologically superior metal and composite frames are going to improve anybody's take on the world; but we haven't forgotten that the world is looking back. So Bollé offers a range of styles, colors and contemporary attitudes that give new meaning to the idea of improving performance.
